#### Important Notes:

LONGER DELAYS MAY APPLY Funds you deposit by check may be delayed for a longer period under the following circumstances: We believe a check you deposit will not be paid. You deposit checks totaling more than \$6,725 on any one day. You redeposit a check that has been returned unpaid. You have overdrawn your account repeatedly in the last six months. There is an emergency, such as failure of computer or communications equipment. We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the fifth business day after the day of your deposit.

Check(s) must be payable to the depositing member(s) to receive the above availability. Deposits made at a Workers Federal Credit Union's ATM/ITM without a Video Representative after 6:00 p.m. are considered deposits made on the next business day. All checks drawn from a Worker Credit Union account and deposited at an ATM without a Video Representative will be available next business day after day of deposit. All other checks and money orders deposited at an ATM without a Video Representative will be available on the second business day after day of deposit.
